

Sunpak® has a whole new style!

The classic Sunpak® Patio Heater
now has a stylish new look to its face.

Patent pending

While providing the same dependable infrared heat, Sunpak® Patio Heaters are now available with a sleek and stylish face plate in brushed stainless steel. The brushed stainless steel softly reflects back the colors surrounding it, uniquely enhancing and blending into the environment.

Sunpak® is C.S.A. Intl. Design-certified as an unvented infrared heater for outdoor or indoor installation. All units are equipped with spark ignition and 100% shutoff for safety, economy and convenience.

Sunpak's® aluminized steel enclosure and aluminum face grill provides resistance to wind and rain. A slim body and 0-30 degree angle mounting option on most models, gives Sunpak® the versatility to fit easily into a wide variety of patio situations.
